

SLOTTED WIRING DUCT

CARROLL offers the widest range of slotted wiring duct to suit all applications. Approved to both UL and CSA standards, CARROLL ducting meets all customer requirements for quality, range and value for money.

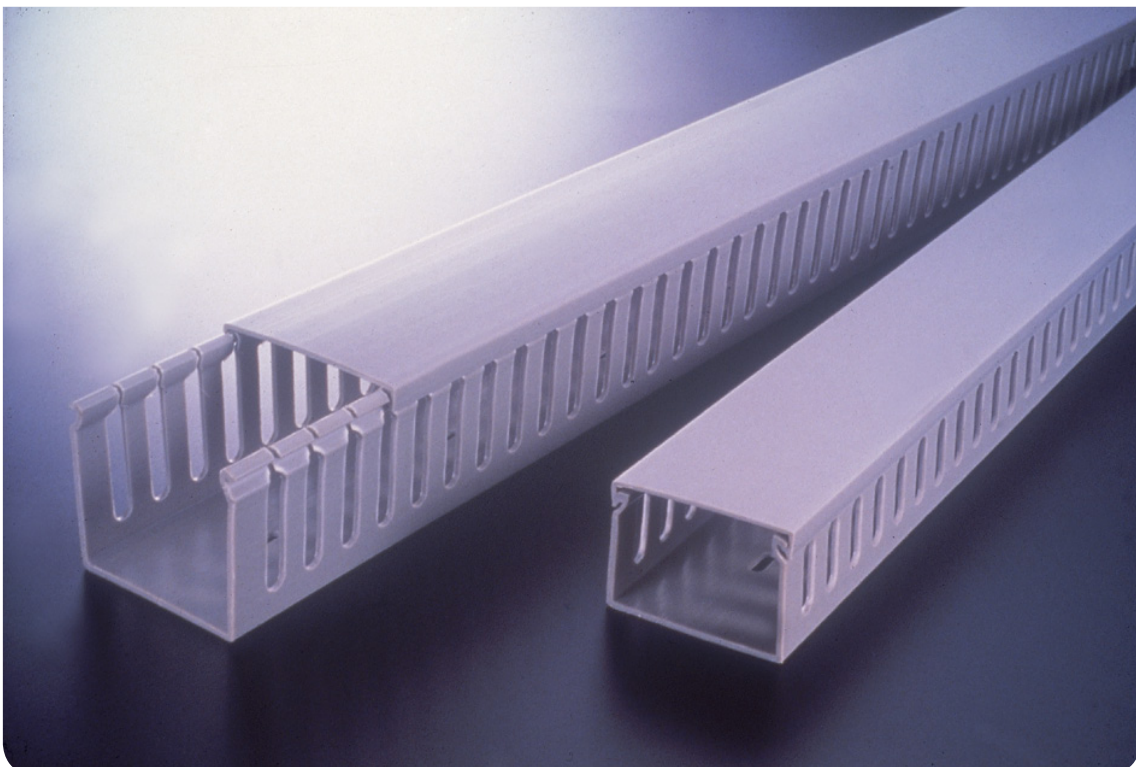

CARROLL Slotted Wiring Duct is the premium management product designed for the routing and concealing of cables in a wide range of installation situations.

The slotted design provides a neat and finished appearance and allows quick modification for larger cabling bundles, which saves on installation time.

The CARROLL Slotted Wiring Duct features parallel holes on each of the sidewalls to facilitate easy cutting where needed for specific applications.

The ducts are manufactured from high-impact PVC that is flame retardant to UL94-V2.

Lids come complete with the Slotted Wiring Duct however CARROLL Slotted Wiring replacement Lids are available.

Carroll offers the widest range of Slotted Wiring Duct to suit all applications.
